

This fast-paced, science-fantasy adventure set in a magnificent Pacific Northwest old growth forest is a journey through the perils of friendship, nature, and living in a world that is full of surprises.

Featuring lush illustrations by the author and “clean YA” prose, this intriguing and uplifting tale of resilience and hope will appeal to readers of any age who love adventure in the wild and who yearn for a deeper connection with all living beings.

Seventeen-year-old Izzie never imagined living through a summer like that one.

Not even in her wildest dreams.

It wasn't just being stranded in a forest wilderness with four other teens she barely knew. It wasn't even their struggle to survive or their far-fetched search for a way home.

It was everything else.

But as her new friend Annabelle would say, “*The universe is mysterious, Izzie. Who knows what's really out there, waiting to be discovered?*”

Indeed. It was utterly unimaginable.
